GOVERNMENT OF MADHYA PRADESH  
PUBLIC WORKS DEPARTMENT  
MANTRALAYA, BHOPAL

No. \_\_\_\_\_ /P/19/2004.

Bhopal, dt. 30 /10/2004.

To

The Chief Engineer,  
P.W.D. \_\_\_\_\_ Zone,  
\_\_\_\_\_

Sub:- Re-classification of <sup>road.</sup> information regarding \_\_\_\_\_

The State Highway Act provides for classification of roads in to following categories:-

1. Express ways
2. State Highway
3. M.D.R.
4. O.D.R.
5. V.R.

However as a practice, ODR & VR are clubbed together these days and hence only four categories are left.

The criteria for classifying road into these categories have been circulated by the department from time to time. Instructions were issued that a committee headed by the District Collector would be constituted and the recommendations of the committee shall be taken into consideration for classifying various roads.

You are therefore requested to please collect the recommendations of the committee at the district level and examine them carefully keeping in mind the technical parameters and traffic conditions and furnish the detailed list in the enclosed format. Approved criterion for classifying the roads in MDR category is enclosed for facilitating your work. Existing NH, SH& MDR and roads for upgradation into MDR category should be marked on a map in different inks.

296

For the sake of clarity, it is pointed out that no new route is to be considered for classification into express way and State Highway. Existing MDR will continue to be classified as MDR and only ODR and V.R.s have to be re-examined. The V.R.s and ODRs that can be upgraded into MDR may kindly be recommended so. I request that this information be furnished to me by 8th of November 2004 in an electronic format (Excel-CD) along with the map. This may kindly be treated as most urgent and should be dealt with due diligence as it would pave the way for preparing a Road Development Plan for M.P.
